

MasterTrack® BT

The new box track sliding glass door system

Bohle

September 2022

Product
Focus

MasterTrack® BT Product Highlights:

- No glass processing required
- Simple glass clamping mechanism for a secure hold
- Installation with or without fixed glazing
- Height adjustment of +/- 3 mm
- Safe anti-jump protection
- Smooth closing mechanism

With a long history of offering the best in sliding glass door systems, most recently with the Bohle designed and manufactured, MasterTrack® FT range, now, for the first time, our range includes a complementary box track system: MasterTrack® BT. Featuring many components that make MasterTrack® so easy to install and adjust, MasterTrack® BT offers an even wider range of options including wall, ceiling or flush mounted, telescopic and pocket door installations.

The MasterTrack range, which also includes the MasterTrack ST sliding shower door system, is designed to deliver smooth reliable functionality, while meeting the aesthetic requirements of demanding end users. MasterTrack stands out due to its ultra-smooth running despite being made up of just three parts: track, roller system and clamping mechanism.

Put simply – it is as good as it looks.
