# Santos

La nuova cerniera per box doccia Santos si affida alla comprovata qualità in un nuovo design. Questo nuovo look, progettato internamente alla Bohle, eccelle grazie al suo aspetto moderno ed elegante. Grazie alla combinazione di elementi rotondi e quadrati, il sistema si adatta in modo ottimale a una vasta gamma di accessori. Non solo le viti di fissaggio sono nascoste dietro il coperchio, ma anche la regolazione della posizione zero è completamente invisibile. Le dimensioni minime delle luci riducono al minimo le perdite d'acqua. Questo pacchetto completo trasforma Santos in una cerniera per box doccia di alta qualità che non dovrebbe mancare in nessun bagno.

## Cerniera per Porte Doccia Santos vetro-muro 90°
