Bohle Panel Express Clamping Carriage

Our easy to manoeuvre Bohle Panel Express is the perfect solution for warehouses or on site. The unique compact design enables a single individual to easily navigate rough terrain and tight spaces. Rubber grippers inside the brace mechanism keep your material from being marred. For sheets of up to 300 kg. Clamping mechanism automatic up to 75 mm. Hard rubber tyres - no loss of pressure and therefore maintenance-free.

Clamping Carriage, Self clamping

Ideal for transporting doors, partition walls, sheet materials and structural components with a maximum thickness of 100 mm and a maximum weight of 200 kg. The easy and safe operation of the device during transport helps prevent material damage. Fatigue and back pain are minimised due to the ease of operation of the device, therefore reducing health risks and their associated costs. The transport carriage has a sturdy construction and is equipped with pneumatic tyres suitable for use on uneven ground.

Veribor® 2-cup Suction Lifter, plastic, 60kg

The Veribor® plastic suction lifter has been completely redesigned and now offers improved carrying comfort due to an extended gripping area. The suction lifter is also equipped with a newly designed rubber pad which does not roll up during transport. This suction lifter is suitable for all materials with flat, airtight surfaces. The new handle, coated with slip resistant rubber, prevents the hand from slipping while working with the suction lifter. Type of vacuum generation lever action. Lifting direction parallel. Surface geometry flat. Suction pad ø120. Number of suction pads 2. Vacuum gauge no. GS certified no.
