Oil Glass Cutter Silberschnitt® 3000

The Silberschnitt® 3000 Oil Glass Cutter is the successor model of the BO 5001.0 / 4001.1 plastic glass cutters. It is even more leak proof and convinces thanks to its ergonomic plastic handle with finger grips. The cutting head and cutting wheels are identical to the predecessor model, i.e. they meet highest quality standards and surpass all other glass cutters on the market when it comes to cutting comfort and service life.

i Glass type float glass / coloured glass / ornamental glass · Glass cutting straight · Glass thickness 3 - 12 mm · Application of cutting fluid integrated · Handle plastic · Wheel carbide

Aqua Shower Door Hinges

Bohle Aqua shower door fittings are the perfect alternative to all conventional shower door hinges. The full length aluminium profile system combines a simple and elegant design with all the technical standards of today: an infinitely adjustable zero position, a raising/lowering mechanism as well as a ± 6 mm vertical shim. In addition, the glass is bonded so no glass processing is required.
