Madrid

The Madrid series has been developed by Bohle and offers a visually appealing yet functional solution for any shower door. Conceived as a hinge for one-side opening doors, it enables use of a continuous sealing strip which can be fed through the fitting. No glass cutouts, only drill holes, are required in the glass for installation. Suitable for 8 mm to 10 mm tempered glass.

Madrid Shower Door Hinge glass/wall 90° opens outwards

FINISH

shiny chrome-plated

ART. NO.

BO 5215430

i Glass thickness 8, 10 mm · Elongated hole for wall mounting · No glass cut-outs - only drill holes are required · Continuous sealing strips can be used through the hinge · Max. door weight per pair 40 kg · Max. door height 2000 mm · Max. door width 1000 mm · Material brass

Madrid Shower Door Hinge glass/wall 90° opens outwards, with chamfer

FINISH

shiny chrome-plated

ART. NO.

BO 5215430H

i Glass thickness 8, 10 mm · With chamfer · Elongated hole for wall mounting · No glass cut-outs - only drill holes are required · Max. door weight per pair 40 kg · Max. door height 2000 mm · Max. door width 1000 mm · Material brass

Madrid Shower Door Hinge glass/wall 90° opens inwards

FINISH

ART. NO.

shiny chrome-plated

BO 5215431

i Glass thickness 8, 10 mm · Elongated hole for wall mounting · No glass cut-outs - only drill holes are required · Max. door weight per pair 40 kg · Max. door height 2000 mm · Max. door width 1000 mm · Material brass

Madrid Shower Door Hinge glass/glass 180°

FINISH

ART. NO.

shiny chrome-plated

BO 5215432

i Glass thickness 8, 10 mm · No glass cut-outs - only drill holes are required · Max. door weight per pair 40 kg · Max. door height 2000 mm · Max. door width 1000 mm · Material brass

Madrid Corner Clamp glass/wall 90°

FINISH

shiny chrome-plated

ART. NO.

BO 5215433

① Glass thickness 8, 10 mm · Elongated hole for wall mounting · Material brass

Madrid Corner Clamp glass/glass 90°

FINISH

shiny chrome-plated

ART. NO.

BO 5215434

① Glass thickness 8, 10 mm · Material brass

Olis and Alea

Thanks to their reliable and sturdy quality, the locks and door hinges of the Olis and Alea ranges are the ideal fit for project applications with high frequency use doors. They have been tested according to DIN EN 12209 and DIN EN 1670 and are equipped with a noise absorbing whisper latch. Suitable for 8 mm to 10 mm tempered glass and 8.76 to 10.76 mm laminated safety glass.

Dimensions of Olis glass door locks and keeps

Dimensions of Alea glass door locks and keeps

Olis Glass Door Latch DIN left Non locking

FINISH	ART. NO.
aluminium-coloured E4/EV1	BO 5206860
stainless steel look E4/C31	BO 5206826

i Glass thickness tempered glass 8 - 10 mm, laminated glass 8.76 - 10.76 mm · Latch, non locking · Tested according to DIN EN 12209 (latch permanent test 500,000 cycles, bolt closing test 100,000 cycles) · Tested according to DIN EN 1670 (corrosion class 3) · For project applications with high frequency use doors · Rebate depth 24 mm (for 8 mm) / 26 mm (for 10 mm) · With noise absorbing whisper latch

Olis Glass Door Latch DIN right Non locking

FINISH	ART. NO.
aluminium-coloured E4/EV1	BO 5206861
stainless steel look E4/C31	BO 5206828

i Glass thickness tempered glass 8 - 10 mm, laminated glass 8.76 - 10.76 mm · Latch, non locking · Tested according to DIN EN 12209 (latch permanent test 500,000 cycles, bolt closing test 100,000 cycles) · Tested according to DIN EN 1670 (corrosion class 3) · For project applications with high frequency use doors · Rebate depth 24 mm (for 8 mm) / 26 mm (for 10 mm) · With noise absorbing whisper latch

Olis Glass Door Lock DIN left Profile cylinder with rosette
